Hear the sound of her psychic motor
Can you feel the mechanical specter?
When you sleep she defies your senses
Can you fight the machine's desire?

She's an android succubus
An engine from hell
To achieve her lust
on you she casts a spell

She's got an urge to mate
You're getting intimate
with a demoniacal, metaphysical, digital vamp

She'll turn up in high resolution
just like a real automated temptress
She was made to excite your hardware
You'll be lead to a physical congress
