I know what's the problem
reality's your deception
There is nothing you can believe in

I'll take you to heaven
I've created the solution
I will be the god you'll believe in

Rendering in progress
To late to stop the process
Life's no longer carbon-based
Your soul I possess

Genetic algorithms
Parameters of delusions
I prepared a new world to live in

Compact in one vision
is my tree-way foul creation
Wire frame is all I believe in

Rendering in progress
To late to stop the process
Life's no longer carbon-based
Your soul I possess

Praise the god from the machine
Praise the god from the machine

It's a life simulator
Generator of concrete illusions
It's a life simulator
Generator of concrete illusions

Wire frame is all I believe in

I prepared a new world to live in
I will be the god you'll believe in
Praise the god... Deus ex machina
Praise the god... Deus ex machina

I prepared a new world to live in

I will be the god you'll believe in
Praise the god... Deus ex machina
Praise the god... Deus ex machina
