Have they told you the way to reach heaven?  
Lying truths made you blind and servile  
By the waves of deceit you've been driven  
You're a slave to those who master the wiles

Can you feel the curse?  
Don't you fear the worse?  
See the greif you generate

You've been hypnotized  
by the burst of lies  
You did swallow the bait

Lost in your delusions, reality goes  
downward into the crypts of hate  
All the revolutions of humanity  
will never really help your fate

Love is an illusion if your mind is kept  
in thrall within the streams of lies  
By your sublimations of mendacity  
all truth's gonna be falsified

Can you feel the curse?  
Don't you feel the worse?  
See the grief you generate

You've been hypnotized  
by the burst of lies  
You did swallow the bait  
Your dreams and your emotions  
have been socialized  
But can we speak of freedom  
when love methodized?  
So everything your heart brings  
will be neutralized  
you stay a foolin order to be normalized

What's your core belief?  
Find your own relief  
Take the powder of your eyes

Let the truth appear  
Let your mind be clear  
Then your conscience will arise

You believe in your doctrines and religions  
You believe in a sign from the stars  
You believe in your wars and revolutions  
You believe in all, but your heart is denied

Lost in your delusions, reality goes  
downward into the crypts of hate  
All the revolutions of humanity  
Will never really help your fate

Love is an illusion if your mind is kept  
in thrall within the steams of lies
