Obliveon
"Subgod"

Born as a lie your memories
keep me alive
I'll never die your destiny
I contrive

I'm the seed of sadness
I'm the seed of madness

It's hard to believe, you're so naive
I can get you all
If you try to make me leave
I'll try to make you fall

In lies you believe, your heart i deceive
and you take my blame
I laugh when you grieve, your pain conceives
my eternal fame

I live in your dreams and nightmares
I never rest
Inbred in your brains
with fallacy I infest

I have to bring back the fears i recall
I'm a source of torments
I beget the pretense that makes you crawl
on the grounds of doom

I'm the seed of sadness
I'm the seed of madness
If you try to make me leave
I'll try to make you fall

We're serial citizens, civilized animals
slaves to pleasure and pain
Who decides the outcome?
Who controls the game?

We're serial citizens, civilized animals
slaves to pleasure and pain
Who decides the outcome?

Who controls the game?

Bring me pleasure trough the pain
I love to make you feel
I'm the mentor, I'm the master
My rules can't be repealed

Bring me pleasure trough the pain
I love to make you feel
I'm the mentor, I'm the master
My rules can't be repealed

In lies you believe, your heart i deceive
and you take my blame
I laugh when you grieve, your pain conceives
my eternal fame

I am your suborner
Lies bring me success
I'm the subgod liar
Life i will repress

I am your suborner
I'm the subgod liar

Bring me pleasure trough the pain
I love to make you feel
I'm the mentor, I'm the master
My rules can't be repealed

We're serial citizens, civilized animals
slaves to pleasure and pain
Who decides the outcome?
Who controls the game?

We're serial citizens, civilized animals
slaves to pleasure and pain
Who decides the outcome?
Who controls the game?
