

Falling Here "Empty Spaces"

Visit "[Empty Spaces](#)" on MotoLyrics.com

cure my empty spaces, my broken heart
yo say goodbye before i try to start
i need some help, i need my friends
and another day to ask me why i'm sad

I fight the empty space
to through it all away
cause i wanna change your mind
and leave it all behind
i fight the empty space
to shoot my enemies
to make me feel allright
to lear how to find.

Say "i'm not afraid" if you don't care
i need to scream without making a sound
could you find a funny way to learn the things to say?
so, if you really care, we could fly away

I fight the empty space
to through it all away
cause i wanna change your mind
and leave it all behind
i fight the empty space
to shoot my enemies
to make me feel allright
to lear how to find my heart.
I need to find my heart.
