

## The Fast Forwards "Felicia"

Visit "[Felicia](#)" on MotoLyrics.com

This day in age, that's what they say  
He's getting older, saw it that way  
Buy us some time, old friends of mine  
Wrote me a story, write me a story

You're settling in, we're coming undone  
Felicia, point us to the rapture  
You're settling in, we're coming undone  
Felicia

Long as we live, well it's a start  
Tricks are for children, will tear us apart  
This day in age, that's what they say  
Back to the soreness, back to the soreness  
To oppugn the term, you live what you learn  
Commit to decisions, what haven't you heard  
We'll follow the streets that ivory lines lead  
And try to forget you but I won't forget you

You're settling in, we're coming undone  
Felicia, point us to the rapture  
You're settling in, we're coming undone  
Felicia

Long as we live, well it's a start  
Tricks are for children, will tear us apart  
Turmoil may turn, you live what you learn  
Commit to decisions, commit to decisions  
Long as we live, well it's a start  
Tricks are for children, will tear us apart  
I'll try to forgive but I won't forget you  
Long as we live, well it's a start  
Tricks are for children, will tear us apart  
I'll try to forgive but I won't forget you
