YOUNG HEART

Written By Micah Weisberg

Performed By Fast Years

You like to drink in the morning
Helps to clear your head
But I think you're faking
It instead

You like to put on your make up
Talk about the movie stars
I would rather see you
As you are

You got a young heart and you're afraid to break it
Off to a slow start but don't worry I can take it
You are worth the wait and I've got the time
So let's fall apart

You like to keep me guessing
First you're sleeping my side
Next day I'm lying
With a ghost

You should try to let love in
Even if it's not in from bottle
All you need to do is
Trust in me

You got a young heart and you're afraid to break it
Off to a slow start but don't worry I can take it
You are worth the wait and I've got the time
So let's fall apart
