That smile, that stare  
My face walked out on me  
Sell out, free thing  
Corporate little me  
No spark, no stain  
My photogenic phase  
Unlock the door  
To let them all come in

Press rewind I've reached my peak  
Shine it down like crystalline  
Protecting all the twisted genes  
Show you how it works for me

I am not here  
Not there, not anywhere  
So wrong, give in  
I'm in anti teenage stage

I'm crawling on their hands and knees  
Not the fix that I prescribe  
Kiss me quick and die for me  
Show you how it works for me

Your stain is given to me  
Your stain is given to me  
Your stain is given to me

Oh did I have to know?  
Oh did I have to know?

Show you how it works for me  
Show you how it works for me

Your stain is given to me  
Your stain is given to me
