Bring back that setting...  
Bring back that setting...  
If that's the way you want it  
That's the way you'll get it

We're the stereo connection, baby  
Oooh that's the way we take control of it  
Move up a gear as we break out and branch out  
Ha ha ha you better hold on tight to me  
How much more do you need? Time to turn it on  
When you got nothing to give  
You got no life to live  
If that's the way you want it  
That's the way you'll get it

Set off a spark from that fuse  
When I don't know what else to do  
Last night was something I could believe in  
Bleed in  
Restore that dream and I'm free to go  
Through a red light green light and I know  
That I stole the sun to drop back in the sky tonight

Stereo connection...stereo infection...

Seek and bow down for it now  
Seek and bow down for it now  
'Cause I'm your motherfucking angel  
You might say that the butterfly re-evolved  
Ha ha ha we're still the underdog with more bite  
Always changing our sting in this animal scene  
If that's the way you want it  
That's the way you'll get it

Set off a spark from that fuse  
When I don't know what else to do  
Last night was something I could believe in  
Bleed in  
Restore that dream and I'm free to go  
Through a red light green light and I know  
That I stole the sun to burn it over you

Heat, heat, heat, heat, heating you up yeah  
Heat, heat, heat, heat, heating you up yeah  
Heat, heat, heat, heat, heating you up yeah  
Heat, heat, heat, heat, heating you up yeah

Yeah how low can you go and can you love it?  
Insert it in your mojo!  
Yeah how much do you know and do you hear it?  
Oh I'll send a little bit to me too

Set off a spark from that fuse  
When I don't know what else to do  
Last night was something I could believe in  
Bleed in  
Resolve that risk when three is four  
Through a red light green light and I know  
That I stole the sun to drop back in the sky tonight  
Set off a spark from that fuse  
When I don't know what else to do  
Last night was something I could believe in  
Bleed in  
I say hello to the world that I let go for a while  
And I'm coming now from out of the fuse
