They'll soon be here...

In here you're safe  
Don't tell me about the cherry days(They feed on what  
you got)  
Don't tell me about the conversations(They feed on  
what you got)  
More than I could ever use to make them go

Take a sip of my bluest ocean  
That's how I'm gonna fix you up yeah  
You don't need to hear that song again  
So dive in and hide from all your demons  
They're coming soon to try and take you back  
You don't need to keep that heartache in you  
Just pass your sickness onto me

And I swear that I'll get it out of me  
Yeah I swear, it won't nest inside of me

And I'll stay here above the ocean  
That heals you up as it brings you back  
As I stay here and guard the ocean  
My heart beats inside of you

They're coming over the walls  
They're coming over the walls  
And if it's real, I'll make it surreal and tear out all of  
their claws  
So they can never hurt you anymore

Slowly sink in my bluest ocean  
You can breathe and still be safe there  
Stay under until the coast is clear  
You're crazy, all your life you've been aching on a  
broken heart  
You don't have to keep holding on  
Just pass it onto me

And I swear that I'll get it out of me  
And I swear, it won't make me stay from you

And I'll stay here above the ocean  
That heals you up as it brings you back  
As I stay here and guard the ocean  
My heart beats inside for two

They're coming over the walls  
They're coming over the walls  
And if it's real, I'll make it surreal and tear out all of  
their claws

In here you're safe  
But don't tell me about the cherry days(They feed on  
what you got)  
Don't tell me about the conversations(They feed on  
what you got)  
More than I could ever use to make them go
