

Oblivion Dust "Therapy"

Visit "[Therapy](#)" on MotoLyrics.com

I am so bored of life
I want neon lights fixed to my electric chair
I am so bored of life that I feel sensational
Can I become your friend?
Got glowing bits of face
And you are not as paranoid as me
Just yet yeah

Don't go taking me apart
Don't go taking me apart
Don't go taking me apart

Take me everywhere that I need to go
Make them love me and hold me
These new delusions cut me down
But I can hear you telling me... love me again
Love myself myself
Therapy

I want all the breath that I can take away from you
I really need it
I want to dance around all the love, all the love, all the
love
Don't go taking me apart
Don't go taking me apart

Take me everywhere that I need to go
Make them love me and hold me
But new illusions cut me up
Cause I can sense you telling me... love me again
Love myself myself
Therapy

I wanna feel so medicated
So sedated
Make me
Taste me
Feel me
Fuck me
Break me till I'm...
