The girl with the sharp thorn in her flesh  
I met you at your story  
Behind the hatred there lies a murderous love

Do you kill your friends, if you can fulfill your wish?  
Can you die for someone?  
They are synonymous words

Life is a game, it is survival. That's right! How do you start?  
Time and space, it is a crossroad through a gate!  
Where do you go?

You seek eternal breath  
Why do you need to live?  
We don't know when this world came into being  
We are the time leaper

Nothing's gonna change with you in the world  
Everything will be decided by the rules  
Oh, we are traveling the past and the future through love

Break out!  
Let's dial back all the pains and we will be born again  
I wanna see the stars with you  
Over the miracle  
It's not a Dead End

The boy with the loneliness in his side  
I wanna control your soul  
Behind the hatred there lies a plundering love

The future has been over  
But we are fixating on that  
The past is still to come  
Yes! They are in the same time

Death is a frame, it's a spiral. That's all. How do you think?  
God and Evil, it's a scapegoat through the heart. What do you know?

"What's at the back of your mind? I can't hold your hand"

You say: "Where are you going to take me? I can't believe"

We walk a parallel line

Nothing's gonna change my deep love for you

Everything will be going right for me

Oh, we are wandering in light and darkness through eyes

Break down! Let's revamp all the truth and we will create a fact

I wanna feel reality with the agony of doubt

I love you 'cuz you are always by my side...

Dead or Alive, Dead or Alive

Back to you...

Can't you read? Can't you see?

My words in your virtual vision

Save my life! Save your life!

Why do you come here? I am such a liar.

Bad choice! Bad sign!

It is a prologue of collapse

I don't stop your desire, 'cuz I can't forget you

Nothing's gonna change with you in the world

Everything will be decided by the rules

Oh, we are traveling the past and the future through love

Break out!

Let's dial back all the pains and we will be born again

I wanna see the stars with you

Over miracle

It's not a Dead End
