You make me laugh when I want to cry,
Make me live when I want to die,
Make me smile when I want to frown,
You turn my life upside down.
Believe in me when no one else does
Youâ€™re my now, my is, my was.
When you call my name I begin to blush,
I'm afraid people notice I need you so much.
When I'm with you time flies by fast.
It's like the present is the past.
I need you more than you can believe,
Love you more than you can conceive.
Think about you every night and day
And hope my life can stay this way
I don't want it to be any other way.

Everything to Me

You are the light when there is no sun.
You are the rainbow after the rain is done.
You are the star that twinkles in the night.
You are the moon that glows so bright.
You are the wind that whistles my name.
You are the love when the world is the same.
You are the flowers the bee's never miss.
You are the beach the warm sun kisses.
