We are friends close close friends you and I  
I told you I'll miss you I was right  
I wanted to kiss you not say goodbye  
Say goodbye  
Say goodbye

Across the lake countless lights we saw shine  
A cold wind blew blew down by  
By the climb (?)  
A late walk home London Road feeling fine  
Feeling fine  
Feeling fine

She said with her with her are you  
Are you in love?  
To my answer she said I thought  
I thought as much  
I thought that she would always be the only one  
Summer's gone  
Summer's gone
