[;Verse]

Blinded by your own selfishness
You didn't notice my pain
Occupied with all your craves
I loved you, only in vain

[;Verse]

You feed me false hopes
From the palm of your hand
I can't believe I adored you
But those hopes ran through your fingers like sand

[;Interlude]

Slipping, I'm slipping from consciousness
Please, pretty dark, take away the mental pain
Replace it with the pain of the flesh

[;Chorus]

Leave Me Be, I'm nothing but a empty shell, filled
with pain
I'm not afraid, but I want to flee
Leave Me Burn, to pretend you care would only be in
vain
How long will you keep the act up?
Leave Me Hurt, Leave me Hurt~

[;Verse]

In a second, you disappeared
Leaving me with nothing, but
A mashup of these feelings
This is exactly what I feared

[;Rap]

You promised to always love me, or was that false
words?
I know you lied to me, I know how it hurts
But nevertheless, I love the pain it keeps me alive
So show me, cruel world, how much of my sanity I'll
be able to lose
How many lies I have to go through, through your
abuse

Will I wake up to your smile, or will you wake by your
nightly whore?
I'm tired of your games, but I'll play along till
my soul is sore.
I'll pretend not to notice, when you come home in
the close from yesterday you wore. Give me the pain,
oh give me more

Hit me, please, I need prove I'm still living, Prove it
with your beating.
"You won't tell anyone!" No I won't,
cause the pain is addicting.
So I'll fight these battles, unsatisfied, until my
existence is deceiving.
I must admit though it's not all to your blame
I played with the fire, cause I love the pretty flames
But those flames turned into strong fire, and caused
my suicide
Let them burn!

[;Chorus]

Leave Me Be, I'm nothing but an empty shell, filled
with pain
I'm not afraid, but I want to flee
Leave Me Burn, to pretend you care would only be in
vain
How long will you keep the act up?
Leave Me Hurt, Leave me Hurt~

[;Chorus]

Leave Me Be, I'm nothing but an empty shell, filled
with pain
I'm not afraid, but I want to flee
Leave Me Burn, to pretend you care would only be in
vain
How long will you keep the act up?
Leave Me Hurt, Leave me Hurt~
