

## First Aid Kit "Tangerine"

Another business trip  
Another reason to stay away  
You're coming home on Monday, smelling Tangerine

They say that I should leave you  
Yeah, go and find someone new  
Who doesn't love a girl that smells like Tangerine

I'm not going to beg just say please, please, please  
Be good to me

This happens to all of us  
Apparently I'm not good enough  
I can't make you laugh like Tangerine

And you say; "but I'm still here,  
that proves that I love you there"  
Late at night you come home smelling Tangerine

I'm not going to beg just say please, please, please  
Be good to me
