I will write a thousand times,
Until I write something to get in your mind,
I will write until you reply to me,
Tell me where you're gonna be,
It's time you spent time with me.

I'm not here to judge,
And I'm not here for glory.
You're just so much,
A part of my story.
I granted you,
The right to ignore me
I just want to do what is best.
I just want to put this to rest.

The coldest injection
I found a connection
Our signals got crossed in my mind.
The strangest solution
The seeds of confusion
Please give me some time.

I'm trying to show you who I am
I'll keep on trying 'til you understand,
And I will try to be a friend
Tell me what I need to show,
I'll show you whatever I know.

You can't tell what it is that I need from you,
You don't know just how much I feed from you,
Try to decide what it is that I mean to you.
I know we're gonna be fine.
If you'll just give me some time.

The coldest injection
I found a connection
Our signals got crossed in my mind.
The strangest solution
The seeds of confusion
Please give me some time.
