Well hey baby listen youve got me twistin' watchin you
sippin on that drink
I saw you smile back and I didn't miss that it's all a little
later on week...
And your song comes on you dance along I can't
believe how bad you got me
Like dayum baby dayum baby dayum I love standin
here watchin you breaking
It down baby down baby down you keep pullin me in
when you spinnin around
Baby round baby round I can see your probably been
keepin me up all night
Yeah but that's alright cause girl you got me like
dayum baby dayum baby
Dayum yeah you got me like
