Up with business, close your hearts  
Once a Tribe, now worlds apart  
Gentle safe built within  
Let the wheels of fortune spin

Call for doctors, call for a Priest  
Soon get rid of that greedy beast  
Soon I'll catch my long lost freedom  
I will get back my private Eden,  
My private Eden...

Number One, I will not let them fool me,  
I'll be true, now I won't let them rule me,  
Number One, get back my primal garden, I will work  
you  
Wonders

Be the one to praise, all the living, be the one to  
Practise forgiving  
Be the one to tellin' the blues, be the one to sing out  
The truth  
I'll be over...

Leaves all scattered in the wind, a thousand hearts and  
Hopes within  
Speaking slowly the tattered tongues, chaos,  
misspelling  
Right and wrong  
Out of human factories, young confound, a brand new  
Breed.  
Now speed our life Now speed your love... !
