You were looking at the stars and now you want the sun
You've been talking down on God, sticking out your
tongue

Took a little bit of drugs and found yourself a friend
Put your hand up like a gun you wanna play pretend

I feel like we could mess around
I feel like we could leave this town

We are kids too young (young)
We've got this love, it's in our blood
We'll run through these city streets hot like guns
(young)
Kids too young, too young

I've been finding all the words to make you wanna
cry
Been looking up your skirt saying my goodbyes
Took a little bit of drugs and found myself a friend
Put my hand up like a gun and put it to your head

I feel like we could mess around
I feel like we could leave this town

We are kids too young (young)
We've got this love, it's in our blood
We'll run through these city streets hot like guns
(young)
Kids too young

Give me something I can believe in
Listen close so I know you feel it
With blood on both our hands, I can feel it
Holding close you know I won't let you go
'Cause we are warriors (We are warriors)
Give me something I can believe in
I'll hold you close, you know I won't let you go

We are kids too young (young)
We've got this love, it's in our blood
We'll run through these city streets hot like guns

(young)

We are kids too young (young)

We've got this love, it's in our blood

We'll run through these city streets hot like guns

(young)

Kids too young, too young

Give me something I can believe in

(Too young)
