You made me realize I was your boy
It's what you want, what you wanted, babe
Now that I look back
It was you who wasn't listening
I was always giving in
Pieces and pieces of broken hearts misleading all the
world

Love isn't more than a feeling
Hanging around and you'll get reeled in real quick
I couldn't stand up to believe then
Now I can see how I can tell you I'm over it
I like you, not like, not like I liked you
I like you, not like, not like I liked you

You turned this game around, inside & out
It's been the same way every day
Pictures can fade; so can you
You never wanted to lose, but now you're gonna
so I'll find time give you what you want
What you want in the world

Love isn't more than a feeling
Hanging around and you'll get reeled in real quick
I couldn't stand up to believe then
Now I can see how I can tell you I'm over it
I like you, not like, not like I liked you
I like you, not like, not like I liked you

I was sick of falling in love
With the simple life comes a simple lie
Do you really wanna start the war?
Cause I can't take back your heart

Love isn't more than a feeling
Hanging around and you'll get reeled in real quick
I couldn't stand up to believe then
Now I can see how I can tell you I'm over it
I like you, not like, not like I liked you
I like you, not like, not like I liked you
