Behind everything white light  
fills the sky and it covers there eye's  
They're controlled by this white light  
they obey they submit they believe  
Do you wonder why

[Chorus]

Do you wonder why everything's wasting away  
why does this feel like a nightmare  
Do you wonder why everything's falling apart why  
doesn't anyone hear me  
Please save me from this light  
Do you know what it feels like  
to be scared for your own life

Behind everything white light  
fills the sky on this beautiful night  
and they pray for there own lives  
while there brothers and sisters grow weak

We will bring down these white lights  
if it takes to the end of this life  
We will bring down these white lights  
if it takes to the end of this life  
if it takes to the end of this life  
if it takes to the end of this

[Chorus:]

Do you wonder why everything's wasting away  
why does this feel like a nightmare  
Do you wonder why everything's falling apart why  
doesn't anyone hear me  
Please save me from this light  
Do you know what it feels like  
to be scared for your own life

We sing tonight our voices rise  
the sound we make the earth will shake (x3)
