feels like a bitter sweet pity
it's time to face this city
so many shoulders that i need
feels like there's nothing left to leave
i can see reflections in the river
i can hear the memories in the mirror
the same four walls that watched it all begin
are slowly caving in

(chorus)

don't say i'm hiding cos i'm not
and i love everything i've got
i'm just looking for that embra-a-a-a-a-ace
they say i'm running it's not true
i promise i will always love you
i'm just looking for that embra-a-a-a-a-ace
embra-a-a-a-ace

last chance is better late than never
no one said it was destined to be better
maybe i'll come crawling back to you
but for the moment i'm cool
look once again who's being selfish
the bright lights and dreams are on the market
wasn't me it was the seaside who ran away

don't say i'm hiding cos i'm not
and i love everything i've got
i'm just looking for that embra-a-a-a-a-ace
they say i'm running it's not true
i promise i will always love you
i'm just looking for that embra-a-a-a-a-ace
i wonder if the streets are gonna get me
i wonder if i stay will they forget me
can i call you ho-ome
can i call you ho-ome
can i call you ho-ome
can i call you ho-ome
don't say i'm hiding cos i'm not
and i love everything i've got
i'm just looking for that embra-a-a-a-a-ace
they say i'm running it's not true

i promise i will always love you
i'm just looking for that embra-a-a-a-ace
