Let it be reborn invited and I (hate my ways now)  
I looked possessed in a focus of pure hate  
(And I was gone forever, gone forever, gone)

I didn't mean it and now I'm faded and wasted  
I'm throwing up the old  
I knew that I'd live it, admit it my demons were beating  
me down

Cut out the black space the blood and frustration (of a  
wasteful life)  
And I sent myself away with the medicine another  
(sleepless night sleepless night)  
I didn't mean it and now I'm faded and wasted  
I'm throwing up the old  
I knew that I'd live it, admit it my demons were beating  
me down  
Down

Demons were, I were I be were down  
My demons were I were I be were down
