Standing here, face to face
Feel the feel in this place
Too much blood has been shed

Life looking so much better
Too hot, one love
Many faces fallin' down

Tonight don't fight
I'll surrender
Now put your gun down

Tonight don't fight
Love is strong now
So put your gun down

Put your gun down
Put your gun down
Put your gun down
Put your gun down

Put your gun down
Put your gun down
Put your gun down
Put your gun down

Silent hears rainin' down
Loneliness all around

Too hot, one love
Many faces fallin' down
Tonight don't fight
I'll surrender
Now put your gun down

Tonight don't fight
Love is strong now
So put your gun down

Put your gun down
Put your gun down
Put your gun down

Put your gun down

Put your gun down
Put your gun down
Put your gun down
Put your gun down

Wha- Wha- Wha-
What are we waiting for?
Lo- Lo- Lo-
Love is the only cure

Wha- Wha- Wha-
What are we waiting for?
Lo- Lo- Lo-
Love is the only cure

Tonight don't fight
I'll surrender
Now put your gun down

Tonight don't fight
Love is strong now
So put your gun down

Put your gun down
Put your gun down
Put your gun down
Put your gun down

Put your gun down
Put your gun down
Put your gun down
Put your gun down

Put your gun down
Put your gun down
Put your gun down
Put your gun down
