Well your just a whore
Hector's old Whore
With one of his many bastards

I tried to turn you
Into something more
But your happy
Just being a whore

Hectors old Whore
With one of his many bastards

And I'll always just be
The fool who tried to change you

Who am I to change you
I can't even change myself
But the crimes you have committed
I just can't help myself

I love you too much
But you would never love a fool
Still I love you too much
