"Hollow And Cold"

I assume you have become board with me
I can no longer please you
I beg and bleed without hesitation
Without hesitation you let me

Mercy is not needed
All I have to do is walk away
How can you be so hollow and cold
Allowing me to...
Beg and bleed without hesitation

You say I am the freak
For staying where I am not wanted
I say you are the freak
For allowing me to stay this long

Now that you've left me
I'm hollow and cold
But it is not the first time
You know

Now that you've left me
I'm hollow and cold
But it is not the first time
You know

Never again!
As I've said before
It never seems to
Last that long
