I need Lily and I need Lily and I need Lily
I need Lily and I need Lily and I need Lily
I need Lily to rescue me
I need Lily and I need Lily

It's sad and lonely
Just being me
I never thought
She would mean this much to me

I need Lily and I need Lily and I need Lily
I need Lily and I need Lily and I need Lily
I need Lily to rescue me
I need Lily and I need Lily

I need Lily to rescue me
From this horrible place
Must I should I forget
Nothing left here but regret

I need Lily to rescue me
I need Lily just for me
I need Lily soon as can be
Get me Lily if you please

You seen Lily
Have you seen Lily
I need Lily to rescue me
