Do you know what they say
My life's never been up to scratch
And I never stood a bloody chance

Do you know what they say
My life's never been up to scratch
And I never stood a bloody chance

Do you know what they say
My life's never been up to scratch
And I never stood a bloody chance

Do you know what they say
My life's never been up to scratch
And I never stood a bloody chance

Do you know what they say
My life's never been up to scratch
And I never stood a bloody chance

Well you know what I have to say
Life has never been up to scratch
So I never stood a bloody chance

Well you know what I have to say
Life has never been up to scratch
So I never stood a bloody chance

Well you know what I have to say
Life has never been up to scratch
So I never stood a bloody chance

Well you know what I have to say
Life has never been up to scratch
So I never stood a bloody chance

Well you know what I have to say
Life has never been up to scratch
So I never stood a bloody chance
