You can hear it in my voice
You can see it in my eyes
No it is no big surprise
That I'm hopelessly in love

You know
It pisses me off
When I think about
The things I do for love

It pisses me off
When I think about
The things I do for love

What do you live for
Tell me tell me tell me now
What do you live for
Tell me tell me tell me now
What do you live for
Tell me tell me tell me now

It pisses me off
When I think about
The things I do for love

It pisses me off
When I think about
The shit I go through for love

But it is you that most
Pisses me off
Could care less for my love
