You walk away
I walk away
You walk away
I walk away

You walk away from me
I walk away from you
You walk away from me
I try to keep from turning blue

You say you don't need me
I say you don't I need you
You can live without me
I can't live without you

You walk away
I try to say
But you won't look back
Not for me anyway

I walk away
May as well be
On my hands and knees
I crawl back anyway

You walk away
I beg you to stay
You walk away

I stand here alone
Soon I'll walk away
