(Verse)

As I look around I'm so sadden by what I see
the way we treat each other is so terrible to see
the promises of peace and love have all been
thrown away oh mother nature help us make it
to another day, you do things so much better
so help us mother nature.

(Chorus)

Oh Mother Nature please save us from ourselves
Send down your sun rays to brighten all our days.
Send down your rain to cool our heated wars and
Make your flowers grow to sweeten our world for all
You do things so much better so help us Mother Nature.

(Verse)

You've always been there for us through wars and
natural
Storms, please help us please make it to a new dawn
The names we call each other now bring hatred and
disgrace
Oh mother nature please help the human race,
You do things so much better so help us Mother Nature.

(Chorus)

(Bridge)

Please save us from destruction there's nothing we
can do
How can we stop this madness?
We haven't got a clue

(Verse)

The rode to our destruction is where we're headed
now
It seems we can't turn back and our leaders just
don't
Know how they say they have a plan to leads us from a
Dooms day oh Mother Nature please help us to another
day
You do things so much better so much better so help us
Mother nature.

(Chorus)

Oh Mother Nature please save us from ourselves
Send down your sun rays to brighten all our days.
Send down your rain to cool our heated wars and
Make your flowers grow to sweeten our world for all
You do things so much better so help us Mother Nature
