Blue skies come down on me
White clouds are now in view

And it rained forty days you know
And it rained forty nights you know

Blue skies came down on me

Be careful what you say
You said that yesterday
Tell me something new
It's always, always you

Blue skies come down on me
Gray clouds are far away

And sought it for days on days
And sought it six weeks or so, no

Blue skies came down on me

Be careful what you say
You said that yesterday
Tell me something new
It's always, always you

Be careful what you say
You said that yesterday
Tell me something new
It's always ocean blue

Blue skies come down on me
White clouds are now in view

And you should see the view
And you should see the view

Blue skies
Blue skies
Blue skies
