First Verse:

time.. is all i have to offer when you cry  
instead of being honest when i try to be forreal  
it's LIFE.. but how can i believe you when you try  
to do things to believe your on the line, of, leaving me  
(for someone else)  
see i, am working on these things you call a lie  
and being focus on the one thats in my arms tonight  
love, is all i have to give you when you trust,  
that through it all i'm sorry what i have put you through  
but

Chorus:

baby don't you give up now  
i got some ways we could work out  
these problems been gettin' crazy  
but are my only, babyyyy  
tell me that you love me babe  
tell me it'll be okay  
...baby just, don't, walk away

Second Verse:

tears, tho those are mistaken for the times  
i have made you happy and the times you've cried  
because  
you, can't believe that things i've put you through  
but that don't change that fact that i am still in love with  
you  
babe, don't erase me cause you feelin' played  
i just got some problems that i wish would go away  
so please, don't think about the past i've made you see  
cause i don't want you thinking that weren't meant to  
be.  
so

Chorus:

baby don't you give up now  
i got some ways we could work out  
these problems been gettin' crazy  
but are my only, babyyyy  
tell me that you love me babe  
tell me it'll be okay

...baby just, don't, walk away

Third Verse:

i never meant to hurt you babe  
i wish that i could replay  
everything since the day  
we together and we made  
love, because we felt  
the same and nothing else  
you my baby, and i'm sorry  
but baby please don't walk away.

Chorus:

baby don't you give up now  
i got some ways we could work out  
these problems been gettin' crazy  
but are my only, babyyyy  
tell me that you love me babe  
tell me it'll be okay  
...baby just, don't, walk away
