First Verse:

had a lot of dreams man can one come true
i'm livin' in a world where there's just no truth
tell you to follow dreams but dont say which one
so how will i be right if i don't ever become
god, you know, the dude with all the wisdom
said he had a destiny, i feel like i'm in prision
trapped up in my own mind, someone let me out
i should be bigger then just surfacin' the south
i done traveled the east coast, many many times
but never thought to pass some disk out from time to
time
but now i'm gettin' money and i'm buildin' a stronger
grind
so if there's more fish in the sea you better hop up off
my line.
i'm lookin' for the strongest prey, kill you good and
walk away
pullin my own leg just make sure it's okay
i'm just gettin' stronger, and all that i can say
is that i never stopped and that's something that i'll put
on replay

Chorus:

trust that i never stopped my grind (it's everyday)
I'm workin' hard, night and day, tryna find a better way
to reach my dream.. cause so many people say
theres so many people tryna reach the same place
i never stopped, and i never will
you can try but you'll never kill ..me, now.

Second Verse:

all the recognition.. in bout every district
in bout every state and all my haters failed to listen
you thinkin' bout the past all i do is look at pictures
i told you to take so you can see when i start actin'
different
so if i'm trippin' now, wait until i end up deeper
further in this mission music said i was it's keeper
i was born with a vision, tryna keep it alive
i'll get scientific with it, cause it is my life
biologically i'm workin' on this logically

it's in the family to not let haters bother me
success comes from the darkest kid that's in a corner
so you can push me aside, i'll see you later on my
..way..to..fame
cut that, watch me as i take this pain
thats affiliated with some low-key kind names
includin' me man yall need to watch me on this trip
i never stopped before, you will NEVER see me quit.
so

Chorus:

trust that i never stopped my grind (it's everyday)
I'm workin' hard, night and day, tryna find a better way
to reach my dream.. cause so many people say
theres so many people tryna reach the same place
i never stopped, and i never will
you can try but you'll never kill ..me, now.

Third Verse:

say this is a movie, always got a different scene
always got a problem always be a different teen
labels see me different now because i'm seventeen
but i was young and startin' out i wasn't good to be
highly favored, because i'm young and favored
to be about my feelings and not working cause of labor
or puttin' tracks on tables to role over and tape up
tracks and hand it out they feel that life should be
make us
i feel the opposite, i feel i should make my life
i should deal with all the wrong and find a way to make
it right
just because i'm young don't mean that i dont get my
life
i just needed time and now i'm concentratin on my
flight
watch me as get i prepared, and fly away
god is by my side doubt me if you move way
if you can't stand me then you better sit down
if you waitin' for a change it's about to start now
cause

Chorus:

trust that i never stopped my grind (it's everyday)
I'm workin' hard, night and day, tryna find a better way
to reach my dream.. cause so many people say
theres so many people tryna reach the same place
i never stopped, and i never will
you can try but you'll never kill ..me, now.
