Henry took out all the wrong and never thought
Do you know what he'd say, it's a beautiful day
Henry took out all his money and found he had none
Do you know what he'd say, it's a beautiful day

And he would not buy the things that you were handing
down
And he would not clear it off for you and leave you
lying down

Henry found the love and he found it just today
Do you know what he'd say, it's beautiful day
Put my face in all the things that i've never done
Do you know what he'd say, it's beautiful day

And he would not follow things that others said or done
And he would not follow things that you call everyone

'cause henry found the note and he found it hard to
give away
Do you know what he'd say, it's a beautiful thing
Bottled up a ticket to god knows where
Do you know what he said to the driver, it's a beautiful
day

And he would not follow things that you were handing
down
And he would not buy the alternate news when the
dogs were being drowned

'cause henry found the love and he found it today
Do you know what he'd say, it's a beautiful thing
And you know what he knows, that it's a beautiful day
And you know what he'd say, that it's a beautiful day

'cause henry got it all and he found it just today
Do you know what he'd say, it's a beautiful day...
