#### Chorus

My rap name got famous before I did  
If that aint futuristic tell me what is  
"Oh you Future" NO Future The Artist!  
I'm having an identity crisis, yea

#### Verse 1

I aint rap Tony Montana but I watched Scarface last night  
The deluxe edition with a pack of Swishas, quoted err line gettin high  
That wasn't me in Racks on Racks. I aint got no radio smash  
Cuz it's just me and Lazenby like '96 Jay and Dame Dash  
I aint been Magic City but I'm always in the A  
Just 4 hours away from Tennessee State capitol city where I stay  
That wasn't me collabing with B.o.B, T.I., or Gucci  
What make it worse, what make it hurt, that's a goal of mine eventually  
But I got beat to it, by a dude with my same rap name  
And I aint even saying he took it, but I shoulda looked into trademarking  
Or chose a name more creative, less common, wont get taken  
Cuz now people they mistaking me for somebody else, I aint him  
I used to be just doing me, but it's 2 Future's so I'm doing us  
I can prove I been using the name longer  
But he famous, so I gotta change it up?  
But I digress. This aint a diss, just a vent about my current predicament  
You would swear I don't exist \*poof\*  
FYÆTCH!

#### Chorus

#### Verse 2

I'm not a XXL Freshman, have yet to get a magazines

attention  
6 years in the game that's patience.  
What's experience if you don't learn lessons  
I count every one of my blessings,  
Work too hard to focus on what I'm lacking  
Thought I'd be signed by '05, I'm ready for the  
unexpected  
When I 1st heard Racks on Racks I thought a 1 hit  
wonder  
But he kept releasing hits 1 right after the other  
Ain't no way around it, that right there my jam  
In the club yellin lyrics to a Future song, that awkward  
moment when  
Hold up, tell me this ain't reality  
When they yellin Future they don't mean me?  
That's what my fans been calling me from Tennessee  
to overseas  
I did a tour in South America Colombia  
Before your video with Dominicans  
I been Sci Fly since '09. what's astronaut status?  
Pluto aint a planet  
Took a while to get down with your movement  
Uhhh, cuz my name you were using  
But heres the bottom line, I'll never diss another  
brother on his grind  
Same dream, same industry, with the same name  
We on the same team  
And right now you shining for the both of us  
But what about me?

#### Chorus

#### Outro

The name Future doesn't hold the same meaning that it  
used to  
Now you got Odd Future, J. Futuristic, Futuristic, Future  
Freebandz, then  
You got me: OG FUTURE NIGGA! The original. OG  
FYÆTCH! Hahaha but you can  
Just call me Mr. Flattop. And it don't stop. Can't no name  
change stop me.
