[Krystal]

1 step more

2, 3, 4

Love's around the corner

[Victoria]

Left and right

By your side

Boy you're getting warmer

[Luna]

Up the street

Move your feet

See you coming closer

[All]

You better run to my door

Into my arms, say you're mine forevermore

You better run to my door

Into my arms, say you're mine forevermore

[Krystal]

Don't act so shy boy

There's no need to play coy

Tell me why you leave me hanging

Why you taking so long?

[Sulli]

You keep me waiting and anticipating

Open up your heart and tell me that I'm the one you

adore

[Amber]

So 1, 2, 3 I put a spell on you

That's what I got to do

So you can finally see that you belong with me

[Luna]

We have no time to waste, no hesitation

I can't stop dreaming

Someday you will feel the way I feel now

[All]
Hey!
1 step more
2, 3, 4
Love's around the corner

Left and right
By your side
Boy you're getting warmer

Up the street
Move your feet
See you coming closer

You better run to my door
Into my arms, say you're mine forevermore
You better run to my door
Into my arms, say you're mine forevermore

[Luna]
Say 1, 2, 3
Won't you stay with me?
Complete our destiny
When you hear me calling you should hurry

[Krystal]
There's nothing you can do
No turning back, 'cause
It's now or never
And if the fates allow we'll be together now

[Victoria]
Mountain high, valley low
I know you will find me

[Amber]
Ocean wide, flowing tide
It won't stop my baby

[Sulli]
Step by step, in your stride
One for every heartbeat

[Luna]
Come to me, set me free
I hear you knocking on my door

[All]
