You try to keep your composure
I'm only having a laugh
The latest attempt at closure
Failed after 25 drafts

But I can still retain this
I can still collect
You're cashing in on misery
And calling in all your debts

Stop trying to keep your composure
I'm only having a laugh
The latest attempt at closure
Failed after 25 drafts

But I still can still retain this
I can still retain this
I can still retain this

Stop trying to keep your composure
Stop trying to keep your composure
Stop trying to keep your composure
Stop trying to keep your composure

And it comes as no surprise you never let go
