Comfort driving, over burdened
She's still striving to hold together
(Old heaven under) pressures
Come pull to the womb
Foot to the floor
In all of my memories you were always running away

so cold and proud
so unashamed
you were always running away
Just inches from drip freezing
Don't you worry
I don't have it in me
To ever leave you

Save this, and swallow it down whole
Stop this headache, mumble in a chalk line
You're always saying "Save me, I'm a danger to
myself"
And who's driving?
And all through this you deserve better
Drinking, becoming someone else
Someone who's soul will come to naught and vanish
Though I'm trying,
I can't save you, you're a danger to yourself

Like you care
You just wish for an exit
Perfectionist, you falter
We've got no mind to alter

Get up (x2)
Just get up
I'll make it work

Like you care
You just wish for an exit
Perfectionist, you falter
(I've got) no mind to alter

We'll search the sky for answers (x2)
