I'm outside in the cold  
Thought stars would bring the light  
I should have learned by now  
They just come out at night  
The things they always say  
That tunnels lead to light  
It's something I don't see  
Cause it's too dark tonight  
(Tonight, tonight, ..)  
[x2]

Let go now  
Let go now  
It's all for you

And you give, all you got, but it's never enough  
When you've got, nothing left  
It all just gets too much  
[x2]

Too much, too much..  
It all just gets too much

Too much
