WHY... fall into CRIES... for you fool?  
With eyes like fire, you burn desire...  
NO!  
Surround him and hurt him  
And kill him 'cause after all,  
It's a f\*cked up world  
But this is  
NOW...  
WOW... Feel it to? It GROWS... in you to!  
SO fire higher, and burn desire...  
NO!  
Surround him and hurt him  
And kill him 'cause after all,  
It's a f\*cked up world  
But this is  
NOW...  
We'll try to hold on... a hope... a...  
Hope that we create to cover all wrong,  
Hope that we use to hold on and stay strong,  
Hope that we need to keep warm during the night...  
We'll try to believe that perception is peace  
Try to be perfect and always achieve  
Hope that we need to keep warm during the cold, cold  
night!  
We'll try to hold on... a hope...  
SURROUND  
AND CROWN  
No... Please don't...
