

## Oceans Of Sadness "Re-Erased"

Analyse hate  
As wolves catch the sheep  
Feasting on others  
Killing, just to survive...

Slumbering lust  
Forfilled with all blood  
Mirrors will turn  
Your image back to yourself

Forget this pain  
Eating our lives  
Free yourself now  
Or, just suffocate

Mistress of life  
Free me now

Take off this shell  
Re-erase

Child in time  
It's the overdrive  
It's the light inside that we feel  
We've gotta light our  
Candles now before we decide that  
We'll never die  
We've gotta lay down

When Jesus cried  
We crawled out of our pit  
And flew... Away up in the sky
