Waiting for storm to ruin all
Hang on to every branch
You can find, hold on tight
Stay focused on the thought

You'll survive, you won't die no
You'll survive, stay alive now

Hang on to every branch

You'll survive, you won't die no
You'll survive, stay alive now

Stay focused on the thought

No!!!

Don't feed the lion when you are
on a stranger's ground

No!!!

Don't play with fire cause you'll get

burned real soon somehow

I don't believe in God, I don't believe in religion
But I believe in nature having its opinion
We are as strong as we are weak and there's
no difference between you and me

'Praise the lord' they shout

We will find out someday if we have made mistakes

'Praise the lord' they shout

You'll survive, you won't die no
Stay focused on the thought
