It took so long to figure out what's wrong but now I  
know  
Yeah the moment has arrived I can belong, yeah now I  
know  
What it means to see the world in color, ideal  
And I hope it's real, I wouldn't know how to deal with  
this

Whispering the things that I long for, every day again  
just to ensure  
I will feel exactly the same whenever I will wake again  
Try to stay on top of the core, Stan Getz is watching  
over my shoulder  
Making sure I won't forget the girl from Ipanema kept

A safe distance, so persistent, far away subconscious

Whispering the things that I long for, every day again  
just to ensure  
I will feel exactly the same whenever I will wake again  
Try to stay on top of the core, Stan Getz is watching  
over my shoulder  
Making sure I won't forget the girl from Ipanema kept

A safe distance, so persistent, far away subconscious  
Whispering the things that she longed for, every day  
again just to ensure  
She would feel exactly the same whenever she would  
wake again  
Try to stay on top of the core, Stan Getz is watching  
over my shoulder  
Making sure I won't forget the girl from Ipanema kept

A safe distance, so persistent, far away subconscious

And when you must cry make sure that you know why  
There's no time to waste so be strong and face

That fears are not the same they were before - No -  
Fears are not the same they were before - God No -  
"Leave me here alone, don't want to hear it now"  
Fears are not the same as they were before

And when you know why make sure you won't be shy  
There's no time to waste so be strong and face

Try to see now you can!  
Try to feel like human!
