These girls wanna talk it down and keep me around  
But I would never change; I'm a dog, I'm a hound  
But I told them what they wanna hear  
They like how it sounds  
Tell them I'm gone with the wind and I'm lost, never  
found  
I met her at my show, then we smashed right after  
If we go three rounds then she'll fall in love faster  
The very next morning I'm Casper  
In another city for a show somewhere getting plastered  
It's a disaster; to her I'm a drug  
I do her kinda dirt, but they still fall in love  
And I don't understand it  
Foreign chicks on me  
And she speak another language like she from a  
different planet  
She struggle when I'm gone  
It's hard when I leave  
Being Ricky Pen, wear my heart on my sleeve  
And she tell me that she love me but it's hard to believe  
Cuz I'm coming and going, then I cum then I leave

And I swear I'm really not that shady  
But you can't blame me for who I've met lately  
Nowadays chicks wanna call a kid baby  
As soon as they find out I rap, shit's crazy  
But I do play along, yo I can't front  
I give in to every groupie with a fat butt  
London to Japan  
Hong Kong to Iran  
Chicks say I'm the man

What that bitch say?  
What that bitch say?

And everywhere I go, these girls in my ear  
And everywhere I go, these girls in my ear  
And everywhere I go, these girls in my ear  
And everywhere I go, these girls in my ear
