Carry me away  
On the wings of insects  
So sure that we were free  
So sure that we were flying home  
Gemini  
Her season's still alive in me  
She stole my soul in the springtime  
Set me free  
I swallowed the dose  
Hollowed my bones away  
So far away, can't believe  
I've carried this pain  
For so long  
Inside-  
It's like I've died  
Over and over  
It's my time to fly  
Om  
Gemini  
Her season's still a chord away  
I sold my soul in the May-time  
On the other side-  
We'll cast away our line, our shape  
I saw it's all the same  
Om
