Disarray singled out  
In the waves all around  
In the halo here, all eyes stare  
Just the way light bends  
On the blades, I fear  
So tell me then...  
When you look away  
Am I still there when you look away?  
Memory hold tight  
Every slight, thorn,  
Scars adorn you  
Within your spine  
Every life form  
That came before  
You and me tangled up  
When we breathe all as one  
Observation gives  
Our lives breath  
See the way I pray  
Is the way I live  
So tell me then  
Is it our destiny?  
Are you the rest of me?  
Is it decided or can we still create?  
Will you remember me  
High on the energy?  
Out of your sight am I just another vague  
Memory?  
Remember me  
When it's in your sight  
Holy light, sound all around you  
If it's too bright  
Hold on tight til the sky surrounds  
When you're in the bright  
Headlights of stars above you  
Just keep this night  
Haunt me like those stones  
We tossed in the sea  
Memory  
Remember me
