

Gemiinii Riisiing **"Winter"**

Visit "[Winter](#)" on MotoLyrics.com

All your light is on the wane
Summer, you were really something
But winter is on her way
Time for clearing the old away
You're part of me
More that we dissolve away
The more we find
You see, my one and only
Didn't want to be
And so I'm walking away
I never thought the weather
Would have worn away the warm
Like never before I know
Seasons change
I never thought that you would ever
Go the way of everything
And fade away into the gray of...
Winter is on her way
We were always so warm in those days
You still have a part of me
But something's got to change
