Take it Easy Lyrics by Ghinzu

Steady sister, little sister, little sister won't you try

To turn me into someone different when you're

standing by my side

I know the road is long, guess you took me for a ride

Little sister don't you try

Cause I see your eyes are crying molten mascara tears

As you keep waiting for something, well it's something I

should tell you

How much I love you

You can't hear a damn

Your fucking radio's too loud

Take it easy

You're going to love me

No need to change me cause nothing's gonna save me

You can't always try to get me

I give you one, you give me more

I give you something that you always wanted

Take it easy, and let it go

Steady sister, little sister, little sister won't you please

Get your stilettos off my throat so maybe baby I can

creathe

I forgot your name, I forgot the safety word

Little sister it's absurd

Take it easy

You're going to love me

No need to change me cause nothing's gonna save me

You can't always try to get me

I give you one, you give me more

You give me something baby that you have always

wanted

Take it easy, and let it go

Chase through everything we've done

Stay, darling come to me

All the way let's run for all that has to come

Take it easy
You're going to love me
Take it easy cause nothing's gonna break me
Baby love me, like I love you
I give you one, you give me more
Come baby, and give me some more
Take it easy, and let it go
